Fola Awlui

IT Auditor | SOX ITGC | Technology Risk

Rochester, NY | (585) 596-8622 | awluifola@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

IT audit and technology risk professional with 6+ years of experience in SOX 404 ITGC testing, logical access reviews, change management, cloud and database controls, third-party risk, and HIPAA/HITRUST-related work. Known for thorough walkthroughs, clear workpapers, practical issue tracking, and effective coordination with control owners, cybersecurity, infrastructure, compliance, and external audit teams.

AUDIT FOCUS

- SOX 404 ITGC testing & IT Application Controls (ITAC)
- Walkthroughs; design and operating effectiveness testing
- Logical access, periodic access reviews, and privileged access
- Change management, IT operations, backup/recovery, and job monitoring
- Cloud and infrastructure controls across AWS and Azure
- Database and platform controls across Oracle, SQL Server, and SAP
- SOC 1 / SOC 2 reviews, third-party risk assessments, and remediation tracking
- Workpapers, evidence requests, retesting, and external audit support

PROFESSIONAL EXPERIENCE

IT Auditor / Technology Risk Analyst | LifePoint Health

May 2024 - Present

- Perform SOX 404 ITGC walkthroughs and testing across financial and clinical systems supporting a 60+ facility healthcare environment, with workpapers and evidence packages prepared for external auditor reliance.
- Test logical access, privileged access, change management, and IT operations controls, including periodic access reviews, evidence collection, deficiency documentation, and follow-up with control owners.
- Review cloud, database, and cybersecurity-related controls across AWS, Azure, Oracle, and SQL environments, with focus on patching, logging, vulnerability remediation, and configuration management.
- Track remediation items through retesting and help improve the quality and timeliness of audit evidence provided by operational teams.

Information Systems Auditor | CareSource

Mar 2022 - Apr 2024

- Performed enterprise IT risk assessments and ITGC audits covering access management, change control, backup and recovery, and system-generated report reliability.
- Supported HIPAA testing and HITRUST readiness work through reviews of Active Directory and Azure AD configurations, MFA controls, security monitoring procedures, and related evidence.
- Evaluated third-party risks and SOC reports to assess vendor control coverage, identify gaps, and document complementary user entity controls for stakeholder review.
- Supported access review improvements across 15+ enterprise applications by clarifying evidence requirements, documenting exceptions, and following remediation items to closure.

IT Risk & Compliance Analyst | Merkle

Jan 2020 - Feb 2022

- Supported annual SOX ITGC compliance across Oracle and SAP environments, testing access, change management, and IT operations controls affecting financial reporting.
- Prepared walkthrough documentation, evidence requests, workpapers, remediation updates, and control narratives for internal audit cycles and external auditor support.
- Reviewed DevOps-related change activity to validate approvals, migration controls, and production access restrictions during releases and system changes.
- Worked with control owners to close documentation gaps, support remediation, and improve readiness for recurring audit and compliance requests.
